

## Book Review – Macbeth

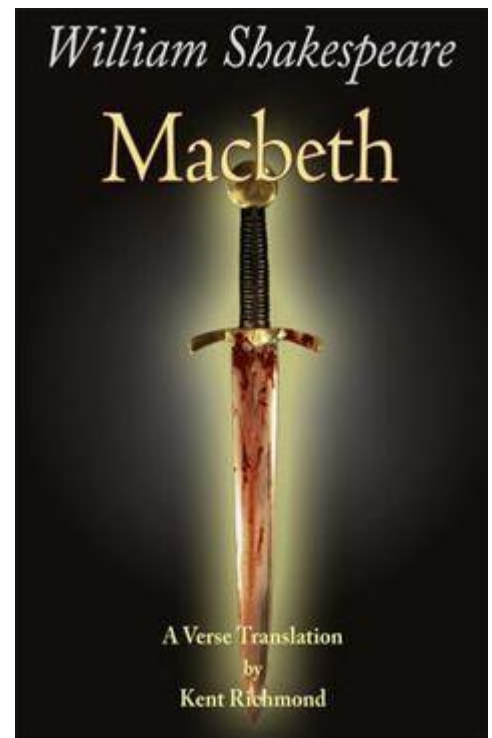

This original English Literature play, which was written by William Shakespeare over 400 year ago, is all about a king (Macbeth) who killed all of the god fathers just to be the master of the kingdom. Macbeth killed his best friend in order that he did not tell anyone about the murder.

This was my favourite part of the book, when Macbeth sits down to eat with all of his kingdom. Suddenly, flash of white dazzled Macbeth... and the ghost of his friend appeared on his throne, yet Macbeth was the only one to see him (as he had been the one who had killed him).

On the other hand, the part I didn't exactly enjoy was when he killed the god fathers because in my opinion it was gruesome to see that someone killed a person just to be a king!

As the book unfolds, it appears that Macbeth gets weaker and weaker as the ghosts haunt him. Also, there is a queen witch and 3 other witches and they try to kill him. They say the famous line "Hubble Bubble and there's trouble"

In my opinion, I rate this book a 10/10 as I really enjoyed reading Macbeth and the challenge that Shakespeare affords and I recommend it to children age 10+.
